During my work, I passed certification and received the certificate "1C: Professional"

ADDITIONAL INFO

EDUCATION

Belarusian State University of Informatics and Radioelectronics, Minsk
Faculty of Radioengineering and Electronics, Professional training (computer science), Average mark: 9.425 - 2021

Minsk State Higher Radio Engineering College, Minsk

1 years 6 month of experience in Automation Testing and 2 years of experience in Development

Department of Computer Technologies, Information
technology software, Average mark: 9.4 - 2018

PERSONALITY

In addition to the experience gained during my studies and work, I completed the "Introduction to C++" training organized by the EPAM company.

I know firsthand about SOLID and design patterns. I know the principles of building and working with relational databases. I have the skills of working with the Git version control system, I can understand other people's code.

I have an analytical mind. As for my personal qualities, I can note self-learning. I learned the 1C programming language on my own to qualify and get my first job. I am also a hard worker, as evidenced by my two diplomas with honors. I am a responsible person and never leave work for the last day.

I have experience of working in a team and a great desire to learn new technologies and approaches to development.

Why do I like my job? I am a perfectionist and always want to make even better what is already there.

My slogan for life: if you do anything, then do it well !
