Select Design
February 2023

VBR labs

About VBR Labs

VBR Labs is developing complex, customized tech products and cutting-edge solutions for various businesses.

We are a full-service technology provider focused on delivering digital innovation.

Understanding market trends, we help our partners turn great ideas into exceptional products.
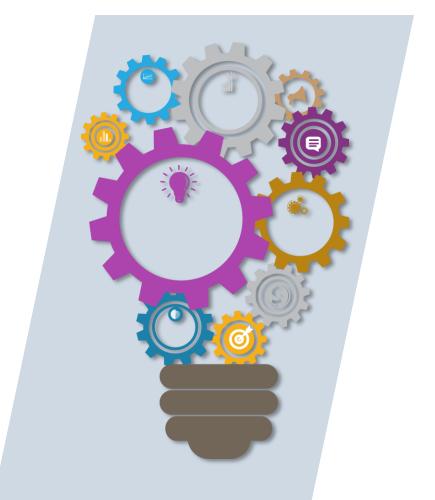

Our approach to software engineering combines top technical know-how, fast delivery methods and lots of dedication.

We cover the end-to-end software lifecycle development to deliver innovation, scalability, quality and speed our clients need.

General landscape

Select Design is an online retailer of furniture and interior design elements combining the products that can be found in the three showrooms – Ethan Allen, Caracole and Bernhardt Interiors – from Baneasa Shopping City, Bucharest.

Select Design needs a suite of IT and Infrastructure services to serve the operations of one of the locations.

We enthusiastically advance the current proposal in regards to the required services and we are looking forward to work with you.

In case you have any questions, please do not hesitate to contact us.

Timeline

We consider feasible to finish the installation, set-up, configuration and testing of the equipment in about

2-3 working days

from the moment all the equipment arrives on the premises.
It is necessary that before we start, all the works should be finished at the electrical installation, walls and floors of the space.
